

MSC CRUISE LINE WORKFORCE HOUSING

Mobile Modular helped MSC Cruise Line create modular apartments for its staff on a man-made island that serves as a day-stop destination for passengers.

THE CHALLENGE

MSC Cruise line set out to build a man-made island in the middle of the Atlantic Ocean to serve as a day stop destination for the cruise ship passengers. They were in need of housing for the staff who would be working on the island.

THE SOLUTION

By utilizing two different manufacturing partners, one located in Florida and the other in Georgia, to construct 80 modules off site in less than 90 days, Mobile Modular successfully provided (3) 3 story apartment buildings consisting of 132 units with (1) 2 story executive town home consisting of 4 dwelling units.

Customer Name:	MSC Cruise Line
