

# SEQUEL TRANSITION ACADEMY

Mobile Modular helped Sequel Transition Academy accommodate its growth in Sioux Falls with a modular dorm project that was quick and under budget.

## THE CHALLENGE

Sequel Transition Academy was in need of a facility to accommodate the tremendous growth the Sioux Falls location has been experiencing.

Before turning to Mobile Modular, Sequel was having a hard time finding the right solution that was not only feasible but could be built in the quick time frame they needed.

## THE SOLUTION

Mobile Modular was able to secure an existing modular dorm facility located in Houston, Texas and with some upgrades to the building from Texas to South Dakota codes as well as some hurdles to overcome with transporting these very large and heavy modules, the new 17 module, 12,045 square foot building was finally set out in early December 2017.

**Customer Name:** Sequel Transition Academy

**Project Location:** Sioux Falls, SD

**Building Type(s):** Modular Dormitory

**Module Count:** 17

**Total Sq. Ft.:** 12,045 sq. ft.
